Through August 31, 2017

Town of Barnstable Public Health Division Rating System for Food Service Establishments

The Town of Barnstable Public Health Division designed a rating system for food service establishments. Ratings are based upon compliance with the Federal Food Code and the State of Massachusetts Minimum Sanitation Standards for Food Establishments.

Ratings of A, B, C, or F are based upon the number of critical violations and non-critical violations observed during unannounced ("surprise") inspections. F ratings are not posted as the establishment is immediately placed into a probation period for review ("PR") with increased monitoring. In most cases, an F score was attained during an inspection due to an unforeseen circumstance and has been since corrected. However, during the announced follow-up inspection, a rating was not provided due to the fact that the inspection was announced. Thus, a "PR" rating is issued.

These ratings are based upon sanitation and food safety; it is fair and equitable regardless of whether the establishment is new or old and regardless of whether the establishment being rated is a fast food type food service establishment or a full service sit-down restaurant.

These ratings are reflective upon the last six months of inspections beginning February 28, 2017 until August 31, 2017.

If you should have any questions or comments, please feel free to telephone us at (508) 862-4644.

Rating Key:

A= Zero critical violations and no more than 3 non-critical violations

B= One critical violation and less than 4 non-critical violations; or if no critical, 4-6 non-critical violations

C= Two critical violations and less than 4 non-critical; Or if no critical, 7-8 non-critical violations

PR= Probation, establishment requires monitoring due to failure to meet minimum sanitation standards.
