DRAINAGE STRUCTURE & PAVEMENT REPAIRS PHINNEYS LANE & HYANNIS ROAD

The Department of Public Works will be performing drainage structure repairs on various sections of Phinneys Lane and Hyannis Road between Attucks Lane and the intersection with Route 6A in Barnstable Village beginning on Thursday, November 1, 2018. Failed sections of pavement around the structures will also be removed and replaced with new asphalt pavement. Work is expected to be completed by Friday, November 9, 2018, weather permitting.

The drainage repairs and paving operations are both mobile activities that will proceed along one travel lane at a time. Vehicle access will be restricted to one lane around the mobile operations. Motorists can expect minor delays at times during this construction process.

Operations will start promptly at 7 AM and run until 5 PM, after which time through traffic will be opened back onto all lanes of these roadways.

As always, please slow down and use extreme caution when traveling through the road construction areas and follow posted safety signs.
