Paul J. Canniff, D.M.D.
Junichi Sawayanagi
Donald A. Guadagnoli, M.D.

BOARD OF HEALTH MEETING MINUTES Tuesday, December 20, 2016 at 3:00 PM Town Hall, Hearing Room 367 Main Street, 2nd Floor, Hyannis, MA

A regularly scheduled and duly posted meeting of the Barnstable Board of Health was held on Tuesday, December 20, 2016. The meeting was called to order at 3:00 pm by Chairman Paul Canniff, D.M.D. Also in attendance were Board Members Junichi Sawayanagi and Donald A. Guadagnoli, M.D. Thomas McKean, Director of Public Health, and Sharon Crocker, Administrative Assistant, were also present.

I. **Condemnation Hearing: Show-Cause Housing:**

Joanne Curran, representing for Lucienne Lampert, owner – 59 Kelley Road, Hyannis, Map/Parcel 292-066, one elderly occupant, critical violation – failure to provide water.

Claudia Borden, Outreach Coordinator at the Senior Center, and Joanne Curran, the owner's daughter, were present at the meeting. The owner is in a nursing home. The Barnstable Water Company generously turned the water back on for the moment.

Ms. Borden said the tenants have agreed to send their January 2017 rent money to the water company to cover the water bill. There is concern as the tenants had agreed to do this for December, as well, and did not pay the water or rent.

The property also needs to register as a rental. Joanne Curran said she is not available to take the property requirements on. Claudia Borden said she will assist her in working through it.

Upon a motion made and duly seconded, the Board voted to allow a period of 30 days to have the water bill and the rental application paid. This will be continued to the March 28, 2017 meeting to verify everything has been done. (Unanimously, voted in favor.)

II. **Status: Motel License:**

James Connors, Attorney, representing Craigville Motel – 8 Shootflying Hill Road, Centerville, motel license application.

Moved to the January 2017 Board meeting. (No one was present.)

III. Variance – Septic:

- A. Dan Ojala, Down Cape Engineering, representing Anthony and Eleanor Leone, owners – 23 Burnham Street, Marstons Mills, Map/Parcel 043-035, 23,878 square foot parcel, proposing addition of an enhanced treatment component.

Dan Ojala summarized the proposed plan.

The owners are living there now and the system is working well. However, the owner wants to make use of three rooms as bedrooms, instead of two.

There was a discussion on whether the length of required quarterly testing should be one or two years. MA DEP's certified approval letter for the MicroFast system as general use states they require only one year of quarterly testing. Mr. McKean stated he would be comfortable with one year of quarterly testing before coming back to the Board. Dr. Canniff suggested the Board stay consistent with prior approvals and recommended two years of quarterly testing before they can come back to the Board.

Upon a motion made and duly seconded, the Board voted to grant the use of three bedrooms with the enhanced treatment component and there will be quarterly testing for TNN and TSS for a one year period with the possibility to come back before the Board, after one year, to ask for a reduction in the monitoring. (Unanimously, voted in favor.)

IV. I/A Monitoring Plan (Cont.):

- A. Thomas Smith representing Bonnie Smith, Trustee – 1627 Phinney's Lane, Barnstable, Map/Parcel 276-018, 14,359 square foot parcel, innovative alternative (I/A) septic plan previously approved by the Board of Health, monitoring plan to be approved.

Thomas Smith presented the quarterly monitoring plan (**EXHIBIT A**) for two years before making any requests for reductions to the Board. (The septic plan for the MicroFast was approved at the last meeting.)

Upon a motion duly made by Dr. Guadagnoli, seconded by Mr. Sawayanagi, the Board voted to approve the submitted monitoring plan of quarterly testing for two years after which time they may return to the Board to request a reduction. (Unanimously, voted in favor.)

- B. Oyster Harbors Club – 170 Grand Island Drive, Osterville, requesting approval of monitoring plan modification for even flow.

At the November 2016 meeting, the Board discussed the modifications suggested by Winston Steadman to create a more even flow through the leaching system and was given the monitoring plan for review.

Upon a motion duly made and seconded, the Board voted to adopt the monitoring plan (**EXHIBIT B**) submitted with the condition that it be done for a minimum of two years. (Unanimously, voted in favor.)

V. Sewer Connection:

Mark Snyder, Trustee, - 65 Sea Street Extension, Hyannis, MA, requesting an additional extension to connect to town sewer for potential owner of property.

Peter Snyder was present to represent his brother Mark at the meeting. As mentioned in the letter (**EXHIBIT C**), there is a buyer for the property who is looking for assurance that the deadline extension to connect to the town sewer could be applied to him as well. There is no sewer stub available at this location and is not scheduled to have one installed.

Upon a motion duly made Dr. Guadagnoli, seconded by Mr. Sawayanagi, the Board voted to grant a five year deadline extension to connect to the town sewer and this extension will apply to any new owners, as well. (Unanimously, voted in favor.)

VI. Subdivision# 362 & 658:

Dan Ojala, Down Cape Engineering, representing Subdivision Modification Application # 362 & 658 for Maushop Avenue/Offshoot Road, Barnstable Village

Mr. McKean said the staff had no issues. Mr. Ojala will give a copy of the Form B to Health Division.

Upon a motion duly made and seconded, the Board voted to support the subdivision plan as presented. (Unanimously, voted in favor.)

VII. Food – New

A. Stephen Wilson, Baxter Nye Engineering representing Domino's Pizza – 237-243 Falmouth Road, Hyannis, requesting a easement for the dumpster and a grease trap variance.

Dumpster:

Mr. Wilson and Cliff Schorer, owner of proposed Domino's Pizza, were present. It was explained that the Planning Board approved a parking easement and discussed the dumpster being located on it. The Planning Board asked them to come to the Board of Health for the approval of locating the dumpster there.

The Board does not have an issue with the dumpster on the parking easement.

Grease Trap Variance:

The Board received an email from Roger Parsons, Town Engineer, which stated Roger did not support granting the variance for two reasons: 1) it is in a sensitive vacuum pump area of the sewer system and 2) the menu is pizza.

Cliff Schorer explained that they have a commissary kitchen elsewhere which does all the preparation work and would make frequent deliveries to them. There would be very little grease, if any, produced as the facility would simply assemble the ingredients onto the pizza and put the pizza onto the conveyor belt pulls the pizza through a 450 degree oven on a screen-type tray. No grease is produced.

Frank Foster, owner of Domino's in Harwich, spoke of the extremely low amount of grease accumulated at his facility. For tracking purposes, he had installed a high-tech camera in the grease trap and results showed minimal collected over the two year period.

The Board said the Board would want the support of the Town Engineer as the establishment would be connected to the town sewer.

The Board voted on each item separately:

- 1) Upon a motion made and duly seconded, the Board voted to accept the use of the parking easement for the dumpster location. (Unanimously, voted in favor.)
- 2) Upon a motion made and duly seconded, the Board voted to continue to the January 2017 meeting the grease trap variance item. (Unanimously, voted in favor).

B. Cynthia Cole representing Federated Church – 320 Main Street, Hyannis, proposes use of kitchen by Cape Cod Child Development, menu to be approved for grease trap variance.

Cynthia Cole stated the potential tenant, Cape Cod Child Development, did not work out. There is no land available to install an exterior grease tank in the ground. Cynthia would like to settle the grease trap variance so that the next possible tenancy can move along faster. She asked the Board to approve the variance and instruct which grease recovery device the Board would require so they can have it installed.

The Board recommended Ms. Cole see the Trapzilla installed at the Barnstable Market and that she see Larry Lemieux, Plumbing Inspector, for suggested products.

Upon a motion duly made and seconded, the Board stipulated that any new tenants would still need to submit their menus for review to the Board to ensure no issues for the town sewer lines. (Unanimously, voted in favor.)

- C. Scott Costanza, manager for new owner of International House of Pancakes (IHOP) – 790 Lyannough Road, Hyannis, requesting a toilet facility variance.

Mr. McKean stated the correct seat count is 102 (not 116 written on the application) Scott Costanza acknowledged that nothing has changed on the interior since the prior owner.

Upon a motion duly made by Dr. Guadagnoli and seconded by Mr. Sawayanagi, the Board voted to grant the toilet facility variance. (Unanimously, voted in favor.)

VIII. Regulations / Policys: Lifeguard Rules at Swimming Pools:

Members discussed the general options available to the pool operators of public and semi-public pools at this time. The Board will invite the pool operators and the Hyannis Deputy Fire Chief Dean Melanson to the January 2017 meeting where they will determine the course of action to continue with in regards to coverage at the pools.

Upon a motion duly made by Dr. Canniff, seconded by Dr. Guadagnoli, the Board voted to extend the Lifeguard Deregulation Policy until January 31, 2017. (Unanimously, voted in favor.)

IX. Discussion:

Regulation – “1650 rule” – consider changes.

The Board will study the 1650 rule and at the January 2017 meeting they will determine whether they are interested in changing it. If so, it will then be advertised in the public notices as an upcoming vote.

X. Old / New Business:

A. Minutes.

Some clarifications were made on the minutes at the meeting.

Upon a motion duly made by Dr. Canniff, seconded by Dr. Guadagnoli, the Board voted to adopt the minutes for the November 22, 2016 meeting. (Unanimously, voted in favor.)

B. Annual Special Events List and notice on page 4.

Annual Special Events List amended Dec 12, 2016 (**Exhibit D**).

The Board discussed the additional note on page 4.
Upon a motion duly made by Dr. Guadagnoli and seconded by Dr. Canniff, the Board voted to adopt the following addition to the notation on the Approved Listing of Annual Special Events and Celebrations - Exclusions:

...

“Also excluded from appearance before the Board of Health at a public meeting are one-day special events with non-potentially hazardous foods such as coffee, popcorn, pretzels, hot-dogs, salsa chips, potato chips, bottled water, soda and other low-risk foods; however, this exemption can only be applied after directly seeking permission from the Director of Public Health who will communicate with the Chairman of the Board regarding the request for exemptions.

In all cases, each applicant must obtain temporary food permits from the Health Division at least four days prior to the special event or celebration.”
(Unanimously, voted in favor.)

C. Reading material on effects of smoking - supporting age 21.

The Board received the reading material. Mr. McKean will check with Town Attorney Ruth Weil on an update of the status of proposed revised regulation.

ADDITIONAL:

Dr. Canniff said there is a news article reporting that US Senator Schumer is calling for a recall of e-cigarette batteries and devices as the number of explosions are increasing and the faulty lithium batteries are thought to be the culprit. In a 7-year period, there were 92 occurrences. Now, in less than 15 months, there are reports of 99 explosions occurring. Many of the devices which have exploded were made in China.

Voted to Adjourn 5:10 pm.

MONITORING PLAN FOR INNOVATIVE ALTERNATIVE SYSTEM

FOR: 1627 Phinney's Lane, Barnstable

MAP / PARCEL 776-018

- (1) The wastewater effluent shall be tested quarterly for the first two years of operation for pH, Nitrates, CBOD, TSS, and TN.
- (2) After two years (after 8 tests are conducted), the applicant may request a reduction in testing to the Board of Health.
- (3) The applicant shall submit a copy of the signed two-year Operation and Maintenance Agreement (O&M) between the contractor and the homeowner to the Board of Health. The engineer or O& M contractor shall conduct inspections to the I/A system a minimum of twice yearly.

had with the step system proposed, is that it is filtered and the filter with grow a fixed film that will help in the reduction in BOD5. Should the need arise the proposed STEP system could be removed without disrupting flow.

I would like to bring up that this system is situated on a 12 acre parcel and if it were residential housing there could be (in theory) 48 bedrooms without the requirement of treatment. This does not include the actual golf course which is 134 acres. So the mass daily load in that area is low, even when the system does not meet permit limits.

Proposed monitoring plan of the system shall be as follows;

- No monitoring from January until June 15
 - June 15th Influent sampling of BOD5, TSS, NH4, and TKN, Effluent sampling of BOD5, TSS, TKN, NH4, N02, N03, Alkalinity, along with field sampling of DO, Turbidity, PH. Sludge Depth in FAST tank and Septic Tank. Step system report on flows and timer override events.
- July 15th Influent Testing of BOD5 8i TSS, Effluent Testing of BOD5 & TSS, field sampling of DO, Turbidity,PH. Sludge Depth in FAST tank and Septic Tank. Step system report on flows and timer override events.
- August 15th Influent sampling of BOD5, TSS, NH4, and TKN, Effluent sampling of BOD5, TSS, TKN, NH4,N02, N03, Alkalinity, along with field sampling of DO, Turbidity, PH. Sludge Depth in FAST tank and Septic Tank. Step system report on flows and timer override events.
 - September 15th Influent sampling of BOD5, TSS, NH4, and TKN, Effluent sampling of BOD5, TSS, TKN, NH4, N02, N03, Alkalinity, along with field sampling of DO, Turbidity, PH. Sludge Depth in FAST tank and Septic Tank. Step system report on flows and timer override events.
- September 16th thru December no testing

**Town of Barnstable Board Of Health
Attn: Dr. Paul Canniff, DMD
Chairman of the Board of Health
200 Main Street
Hyannis, MA 02601**

Dear Dr. Canniff,

I am writing to you concerning an extension to connect the building located at 65 Sea Street Extension, Hyannis, MA to the public sewer. The building is in the Donald Snyder Family Trust My father, Donald Snyder, died on 01/04/2016.

I have enclosed a copy of a letter from the Board of Health from 11/26/2012 concerning the five year extension to connect the building to the public sewer granted to my father. It states that another extension can be requested.

I met with Mr. David Anderson recently concerning this situation. He explained to me that there is still no sewer stub at our property line, which is part of the reason why the five year extension was granted n 11/26/2012. My understanding from talking to him is that nothing has changed with this situation.

The reason I am contacting you now is that I have a person who wants to join my practice. He is only interested in doing so if he can buy into the practice and buy the building. The man he hired to do the building inspection immediately brought up the issue of the connection to the public sewer. He said he would be interested in buying the building, but only if we can get another five year extension that can be transferred over to him should be buy the building. Otherwise, he is going to withdraw his offer.

I would appreciate your thoughts on this issue. I look forward to hearing from you.

Sincerely,

Mark Snyder

EXHIBIT D

Adopted by the Board of Health
Amended December 12,2016

NOTICE: Foods may only be prepared and served at the exact location specified above at the time and date of the event or special celebration. Each table/booth foodhandler manager shall possess Servsafe training and certification (or equivalent). Handwash station required at each table/booth. The fee is \$40.00 per permit for each vendor (per booth, table, or cart) for a one-day event. The fee is \$50.00 for two or more days per permit for each vendor (per booth, table, or cart).

Exclusions:

Excluded from appearance before the Hoard of Health at a public meeting are charity events benefiting organizations such as boy scouts, girl scouts, churches, fire departments, school band, school sports, etc. which are required to pay a processing fee of \$5.00.

Also excluded from appearance before the Board of Health at a public meeting are one-day special events with non-potentially hazardous foods such as coffee, popcorn, pretzels, hot-dogs, salsa chips, potato chips, bottled water, soda and other low-risk foods; however this exemption can only be applied after directly seeking permission from the Director of Public Health who will communicate with the Chairman of the Board regarding the request for exemption.

In all cases, each applicant must obtain temporary food permits from the Health Division at least four days prior to the special event or celebration.

IMPORTANT: The applicant should first obtain approval from the organizer of the event (in many cases the Hyannis Chamber of Commerce- 362-5230) prior to obtaining a food permit from the Board of Health at least four (4) days prior to the event.

Q:\FOOD & FOOD HANDLERS INSTRUCTORS\Special Events Listing\Approved Listing of Annual Special Events and Celebrations 2016.docx
