He has applied for this to open a day earlier. They have been in full compliance since 2006 – with no violations. Mr. Hoxie stated that all alcohol on a one day basis can only be issued to a non-profit, not a profit organization. Mr. Geiler stated State laws do not allow a seasonal licensee to obtain a one day license in the off season or have an extension of the license. Whelehan stated that he is sorry to have wasted the Board's time. Mr. Burman stated on March 31 he is not a license holder – Mr. Geiler asked who else has the right to renew that license except him. Mr. Geiler stated this used to come up all the time for St. Patrick's Day. The law was written to put a limit on the actual operation of seasonal licenses. He stated he cannot fully explain it, but it is clear under the law that a seasonal licensee is not entitled to operate other than in that period. Mr. Hoxie stated it protects the annual licensees.

Mr. Whelehan stated he was not aware of the all alcohol limitation for people who operate for profit and withdrew his application.

Alteration of Premises: Application of Brazilian Grill Inc., d/b/a Brazilian Grill, 676-78 Main Street, Hyannis. Kelly A. He indicated he does have the Affidavit of Abutters and green and white cards but not here – said they were in another folder. Hoxie stated he can go forward and the Board can approve pending the delivery of the Affidavit this morning. He stated the enclosure is hurricane proof glass similar to the Apple building in New York. Mr. Geiler asked how they protect from sun; he stated that there is a shield in the glass and their HVAC system is built to accommodate the excessive heat there – they may also have shades on a small part of it for the couple hours when the sun is very bright. The owners really run a good business. Mr. Geiler asked how they made out with their quest for more parking. He stated he does not know exactly. They do have parking out back and some they can use in International Inn lot. Mr. Tyler

stated they are pursuing that parking area Mr. Geiler mentioned. Mr. Geiler said it is a tough area – the traffic leaving there by the little curve is a tough spot. He asked if the driveway is in and out. Mr. Tyler stated it is mostly an “in;” zoned as in and out though. He thinks it should be recommended that it be in only. Mr. Burman asked if the operation will be the same as now; there will be tabletop service for meats and you take your plate to the buffet as well. There will be a corner display of meats so they don’t have to go back and forth from the other area.

Renewals:

The following renewals have been submitted without any changes from the previous year for Licensing Authority approval:

Common Victualler (Seasonal):

Ben & Jerry’s, 352 Main Street, Hyannis

A motion was duly made by Gene Burman, seconded by Paul Sullivan, and a unanimous vote taken to approve the application of Ben & Jerry’s for renewal of its seasonal common victualler license.

Business Meeting:

Changes to Licensing Authority Rules and Regulations Chapter 502: Hearing requested by the Barnstable Police Department, which has identified as an issue, and has requested the Licensing Authority consider adoption of changes to the regulations for Secondhand Dealers and Collectors as outlined in Chapter 502, Sections 4C&D, and 6E&F. This hearing will be for discussion purposes on the concept proposed.

Officer Maher stated as the junk dealers send their reports, many are sending handwritten ones and they can’t read them. They want them sent electronically. It helps as it is more easily readable and they are able to look at everything on a spreadsheet rather than having to add the handwritten ones. Also, photographs

have been taken as a lump of stuff rather than each piece photographed separately. They are able to take the photos and add them to a database to compare with items which may have been stolen. It is easier for BPD. Another section which is a problem is "consignment" to get around the regulation. Definition of consignment is needed – if any profit is gained it is considered a recordable item. Another issue is resale of gift cards. Subject would steal an item, return it for a gift card which they would sell for less than the value of the gift card. This needs to be looked at and regulated. Mr. Hoxie stated we have to have a public hearing on the request. Mr. Geiler stated we need to run the ad showing the exact changes, etc. It would not have to be re-advertised if something is taken out. If we don't do the ad it would not be legal. Mr. Burman had a concern that anyone who has a junk dealer license must be a computer savvy person. Officer Maher stated only 2-3 do not at this time. Mr. Hoxie stated public hearing will be 3/26/12.

Discussion: Number of Class II Auto Dealers (used vehicles). Mr. Hoxie opened the discussion with the information the Board received about the numbers over a few years – Ms. Ade prepared a memorandum indicating the number of licenses for the past 9 years. We presently have 53 in 2012. This does not include Class I dealers. Mr. Geiler stated some of these have split. The problem we have with a lot of our business zoned land is that it is in wellhead protection areas. The Health Dept. does monitoring for hazardous materials and the Fire Dept. also does inspections, but there is an ever present danger for a well having to be closed down for years. He said that it may not be a plan for reducing the number of dealers we need, but for a minimum requirement for facilities to upgrade the protection. He thinks that would help. The Water Dept. is concerned and anything we can do to help would be a good thing. He also stated some of these dealers are operating on a shoestring and may not be as careful as they need to be. Mr. Hoxie stated that apparently some are going out of business as more are coming in so that is why the numbers aren't growing too much. He thinks we need to take each application on its merits. Mr. Burman stated he does not disagree, but it seems almost every corner has one now. It might be to the point where we say this is enough. He also said he does see more and more complaints – thinks it is for the public protection to limit it. Ptl. Maher stated one of the things that have happened is that larger places are opening rather than those with a smaller number of cars. They become more competitive, and we are seeing more consumers come in with complaints. The better plan would be to look at the number of spaces approved. This breaks down as most have numbers assigned to their lots but some that were grandfathered do not. Mr. Hoxie thinks we should entertain applications, but look at them as to need and merit. Mr. Burman thought we may want to have a meeting with Class II Dealers and ask them what they think. Lt. Murphy stated we could give Officer Maher a little more time to check on these dealers and their operations to make sure they are operating properly and complying, a little more aggressively than in the past. If it turns out there is a bigger issue we could put the dealers on notice there would be a meeting to resolve these problems. Mr. Geiler stated when this first changed (who had enforcement) and the police department took over, we had assistance in regard to day people assigned, in the summer especially, to monitor things. It is hard now to deal with these issues on

just complaints. The problems in the parking lots especially seem to happen on the busiest days and times of the year. Lt. Murphy said that he can bring the suggestion to Chief McDonald for day shift people to be educated to the issues and parking setups. He does not see staff or manpower being an issue. Mr. Hoxie stated the new applicants need to be advised they should show a public need for another license where they plan to go. Mr. Geiler stated the number of consumer complaints has risen significantly as well.

Mr. Burman asked if there are any executive session minutes to be released. There were none at this time.

Mr. Geiler stated we have been getting quarterly reports regarding where arrests are made and where the people say they had their last drink. Most do not show many locations in Barnstable. This packet however is Court cases – there are a dozen places in Barnstable on this list. It is somewhat surprising that the forms are not going to the Attorney General but the list of dockets are very telling. Some have been charged more than once. Mr. Hoxie asked if we should hold hearings on these? Mr. Geiler stated we could but it is almost impossible to use this information as evidence. Ptl. Maher stated he got one a week ago with none in Barnstable listed. He said in the past they have gone out to the locations and asked them how they plan to deal with it in the future. He thinks we should read them out loud as they are a matter of public record. Mr. Geiler stated the Board used to simply notify them to provide a written plan to show how they can prevent it in the future. He thinks the police going out is good as well. Mr. Hoxie stated these places should be informed of the problem list and asked to communicate with us. Mr. Burman had a problem with taking as gospel the testimony of these people telling where they had a drink last – they may be protecting someone. Ptl. Maher stated that he still thinks it requires the police department at a minimum to speak to them and ask for a plan for future protection. Lt. Murphy stated there is one establishment in the list that he views as a problem as to what he has witnessed first hand. He said that he believes they should all be visited, and told there is a problem with the way they are serving.

The meeting was adjourned at 10:45 am.

Respectfully submitted,
