

The Barnstable Bulletin

A MONTHLY TOWN OF BARNSTABLE NEWSLETTER

MAY 2019

FROM THE TOWN MANAGER

Dear Reader:

Preparations are underway for the upcoming summer season. Our DPW crews along with all departments are working to clean up all that Mother Nature has left behind. We are looking forward to the continuing seasonal changes.

As I mentioned last month, we are in budget season. Our Capital Improvements Plan (CIP) budget was presented to the Town Council in April. I will present the FY2020 Operating Budget document to the Town Council on Monday, May 6, 2019. The first reading of the Budget will be on May 16th and the Town Council will conduct the first public hearings on Thursday, June 6, 2019.

The Town of Barnstable has been hard at work with regards to Water Quality issues in town. Barnstable's Channel 18 has prepared a YouTube playlist of pieces they have done on Water Quality Resource Efforts in the Town of Barnstable. You can find it here: <http://tiny.cc/prgc5y>. The pieces include information about Water Quality Planning, Herring Run 2019, Cotuit Bay Dredging, Barnstable at Work – Hyannis Water Supply Division, Water Quality Testing in the Three Bays and more. This playlist will be updated on a regular basis as the information becomes available.

At the January 3, 2019 Town Council meeting, DPW Director Dan Santos presented an Update on Wastewater Management Efforts in Barnstable. Mr. Santos was joined by Assistant DPW Director Rob Steen, Interim Town Engineer Amanda Ruggiero, and Interim Assistant Town Engineer Griffin Beaudoin who have been working on the planning internally. Mr. Santos' presentation can be viewed here: <http://tiny.cc/0ygc5y>. Additional updates have been provided at the February 28, 2019 Town Council Meeting and March 21, 2019 Town Council Meeting.

Memorial Day is Monday, May 27th. Veterans Services is working on the Annual Memorial Day Parade in the Village of Centerville. The John F. Kennedy Memorial will host our annual event on Memorial Day at 12:15 PM. Memorial Day is an opportunity for us to remember those who made the ultimate sacrifice.

Happy Spring!

Mark Ellis

Superintendent's Corner

I am pleased to share that Barnstable Public Schools is undertaking an effort to improve the effectiveness and equity of services for supporting struggling students both with and without special needs.

While we are proud of the quality of services provided to students with disabilities and the hard work of our staff who help all children achieve at high levels, ever-higher expectations require us to look for ways to further increase student learning and improve the way we deliver services to our students. The district has engaged the District Management Group, a Boston-based organization to assist with this project.

This systematic study will examine our current regular and special education services, programs, procedures, and staffing for serving struggling students through the use of quantitative (both in-district and benchmark district information) and qualitative data gathering (using focus groups, stakeholder interviews, and classroom observations). The review will also help the district understand how various categories of staff use their time as they serve struggling students. With this information, the district will be able to make thoughtful and informed decisions to ensure all of our students receive appropriate support.

The result should be a better picture of what is working well in the district, a better understanding of what the appropriate level of staff and services are, overall improved delivery of services to special education students and parents, and better utilization of district resources.

We are excited to be undertaking this study and appreciate your support in this process. I will be sure to keep you updated as the project achieves key milestones. In the meantime, please let me know if you have any questions.
